SIEMENS 4¹³¹

ACVATIX™

Butterfly valves PN6, PN10, VKF41.. PN16

- Grey cast iron housing EN-GJL-250
- DN 40...200
- k_{vs} 50...4000 m³/h
- For fitting between PN 6, PN 10, PN 16 counter-flanges to ISO 7005
- Metallic tight-closing
- Angle of rotation 90°
- No maintenance required
- Can be fitted with type SAL..T10 and SAL..T40 electromotoric actuators

Use

For use as a control or shut-off valve in heating, ventilation and air conditioning systems, e.g.:

- · In closed circuits
- For 2-position controls (open/closed)
- For boiler and chiller sequencing circuits
- To open or close the flow to a heat exchanger or to complete plant sections
- In applications where minimal leakage through the fully closed valve is allowable

Product number	DN	k _{vs}	Leakage rate	Velocity of water flow 1)

Accessories

Designation	Product number	Stock number	Description
Mounting set	ASK33N	S55845-Z101	For mounting SALT10 actuators on VKF41, DN 40200 and SALT40 actuators on VKF41, DN 150200

Ordering

Example:	Product number	Stock number	Designation	Quantity
	VKF41.50	VKF41.50	Butterfly valve VKF41.50 including centering sleeves	1
	SAL31.03T10	S55162-A109	Actuator SAL31.03T10	1
	ASK33N	S55845-Z101	Mounting set ASK33N	1

Delivery

Butterfly valve, actuator and mounting set are packed separately.

4 centering sleeves are supplied with each butterfly valve, for fitting the valve between PN 10 and PN 16 flanges.

Revision numbers

See overview, page 8.

Recommended maximum velocity of flow and the butterfly valve fully open Nominal flow rate of cold water $(5...30 \, ^{\circ}\text{C})$ through the fully open butterfly valve by a differential pressure k_{vs} of 100 kPa (1 bar)

	Mounting se	et	Electromotoric actuator		
			SALT10	SALT40	
Butterfly valve	SALT10 ¹⁾ SALT40		Δp _s [kPa]		
VKF41.40					
VKF41.50					
VKF41.65			500		
VKF41.80	ASK33N			-	
VKF41.100	ASKSSIN				
VKF41.125			300		
VKF41.150		ASK33N	250	400	
VKF41.200			125	300	

Δps Maximum permissible differential pressure at which the motorized butterfly valve will close securely against the pressure (close off pressure)

Actuator overview

Product number	Operating voltage	Positioning signal	Spring return	Positioning time	Positioning force	Data sheet
SAL31.00T10				120 s	10 Nm

SAL61.00T10		DC 010 V		120 s	10 Nm	
SAL61.00T40		DC 420 mA		120 s	40 Nm	
SAL61.03T10		01000 Ω		30 s	10 Nm	

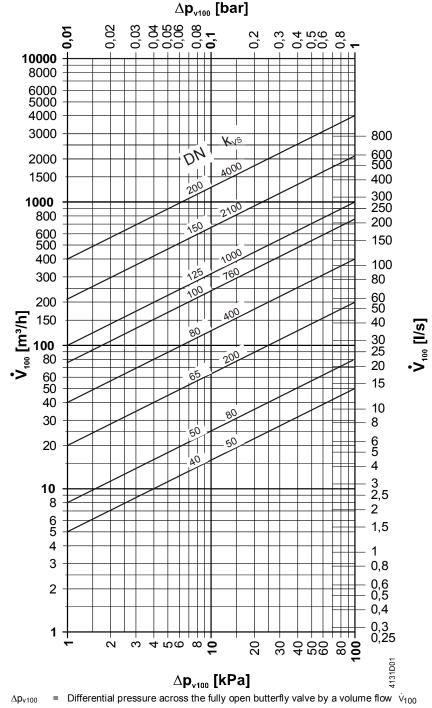

Mechanical design

Butterfly valve

Stainless steel disk and shaft. The valve disk closes against an end-stop. The position of the valve disc is indicated by a notch on the front of the shaft.

Mounting set

In all cases, a mounting set is required to assemble the actuators on a VKF41.. valve.

 \dot{V}_{100} = Volume flow through the fully open butterfly valve

100 kPa = 1 bar \approx 10 mWC 1 m³/h = 0.278 l/s water at 20 °C

Engineering notes

The VKF41.. butterfly valves can accommodate flow in either direction.

In heating systems, the valve should preferably be installed in the return, where the seal will be exposed to lower temperatures, so extending its service life.

To avoid pressure shocks on the butterfly valve, the VKF41.. must be driven to its fully open position (either manually or via positioning signal Y1) prior to activating the pump(s).

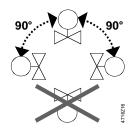

Mounting notes

The Mounting Instructions 4 319 8927 0 are enclosed in the product packaging.

Δ

VKF41.. butterfly valves can be mounted in PN 6, PN 10, PN 16 applications.

Orientation

Upright to horizontal

The valve, actuator and mounting set are easily assembled directly on site. There is no need for special tools or calibration.

Commissioning notes

The butterfly valve must be commissioned only with the mounting set and actuator correctly assembled.

Disk rotated clockwise: Increasing flowDisk rotated anti-clockwise: Decreasing flow

Maintenance

The VKF41.. butterfly valves require no maintenance.

Before performing any service work on the valve, actuator or mounting set:

- · Switch off the pump and power supply
- Close the main shut-off valves in the pipework
- Release pressure in the pipes and allow them to cool down completely If necessary, disconnect electrical connections from terminals.

The valve must be re-commissioned only with the correctly mounted actuator.

Disposal

Do not dispose of the device as household waste.

- Special handling of individual components may be mandated by law or make ecological sense.
- Observe all local and currently applicable laws and regulations.

Warranty

The technical data given for these applications is valid only in conjunction with the Siemens actuators as detailed under "Equipment combinations", page 3. All terms of the warranty will be invalidated by the use of actuators from other manufacturers.
